

## **An Important Message from Intuit for Quicken & QuickBooks 2005 Users**

- Intuit is committed to delivering the best possible products, service, and security to our customers.
- Each year, the number of customers using current versions of Quicken and QuickBooks grows.
- Retirement of older versions of the product allows us to focus our resources on supporting our more current products, which are used by the vast majority of Quicken and QuickBooks customers.
- To continue using online services\* and maintain access to live technical support from an Intuit representative, customers will need to upgrade to a currently supported version, such as Quicken Windows 2006 – 2008 or QuickBooks Windows 2006 – 2008.

\*Online services include Direct Connect and Web Connect.

**IMPORTANT: Quicken Mac 2005 WILL NOT be discontinued in 2008. This version will be discontinued in 2009. QuickBooks Mac 2005 did not offer online download in this version, so it is not applicable.**

<b>Version Year</b>	<b>Discontinuation Date</b>
Quicken Windows 2005	April 30, 2008
QuickBooks Windows 2005	May 31, 2008
